

Cognitive Liberty

Psychological issues

- Freedom of thought
- Agency & free will — Determinism vs. free will
- Personal identity — Social Identity Theory (SIT)
- Psychological continuity
- Mental privacy

No freedom of thought = no freedom of speech

Technological issues

- AI — Automated decision-making
- Machine learning
 - Algorithmic censorship
 - Social engineering
- Neuroprosthetics — Brain-computer interfaces (e.g., Neuralink)
- Encryption issues — Quantum computing
- Neural disparity — Fair access to augmentation
- Neural privacy

3rd Generation Cybernetics

Legal issues

- Seizure Law
- Privacy Law
- Jurisdiction
- Copyright & Patent Law
