

Autonomy and autodidacticism

Description

In development or moral, political, and bioethical philosophy, autonomy is the capacity to make an informed, un-coerced decision. Autonomous organizations or institutions are independent or self-governing. Autonomy can also be defined from human resource perspective and it means a level of discretion granted to an employee in his or her work.[More at Wikipedia](#)

Autodidacticism or self-education is education without the guidance of masters or institutions. Generally, an autodidact is an individual who chooses the subject they will study, their studying material, and the studying rhythm and time.[More at Wikipedia](#)
