

Julian Huxley, UNESCO, and Eugenics

Description

"It is, however, essential that eugenics should be brought entirely within the borders of science, for, as already indicated, in the not very remote future the problem of improving the average quality of human beings is likely to become urgent; and this can only be accomplished by applying the findings of a truly scientific eugenics."

Sir Julian Sorell Huxley

Show/hide publication abstract

"Accordingly its outlook must, it seems, be based on some form of humanism. further, that humanism

must clearly be a world humanism, both"
