Description

In [philosophy](#), **ideas** are usually taken as [mental representational](#) images of some [object](#). Ideas can also be [abstract concepts](#) that do not present as mental images.[1] Many [philosophers](#) have considered ideas to be a fundamental [ontological category of being](#). The capacity to [create](#) and [understand](#) the meaning of ideas is considered to be an essential and defining feature of [human beings](#). In a popular sense, an idea arises in a reflexive, spontaneous manner, even without thinking or serious [reflection](#), for example, when we talk about the *idea* of a person or a place. A new or original idea can often lead to [innovation](#). [2]
