

Dr. Charles Morgan on Psycho-Neurobiology and War

Description

Dr. Charles Morgan speaks to cadets and faculty at West Point about a range of topics, including psychology, neurobiology, and the science of humans at war. Dr. Morgan's neurobiological and forensic research has established him as an international expert in post-traumatic stress disorder, eyewitness memory, and human performance under conditions of high stress.

The event was organized and hosted by the Modern War Institute at West Point.
