

Surviving Evil: CIA Mind Control Experiments in Vermont

Description

Beginning at age thirteen, Karen Wetmore was subjected to horrific treatment in Vermont State Hospital and related facilities. Through years of investigative journalism, and numerous Freedom of Information Act requests, she was able to document that she was a victim of secret CIA mind control experiments as an adolescent, and of sexual abuse by one of her psychiatrists. Karen's psychiatrists included Robert Hyde, M.D., who was cleared at TOP SECRET as the contractor on CIA LSD experiments conducted under MKULTRA Subprojects 8, 10, 63, and 66. Karen calls for an investigation into the nearly 3000 deaths at Vermont State Hospital from 1952 to 1973, when CIA money was pouring into the hospital. These deaths may have provided cover for terminal experiments conducted at the hospital.
