

"Disobedience is the true foundation of liberty. The obedient must be slaves." ~Henry David Thoreau

Interdisciplinary richness

Description

Image not found or type unknown

"It is the mark of an educated mind to be able to entertain a thought without accepting it."
~ Aristotle

"It is the custom among those who are called 'practical' men to condemn any man capable of a wide survey as a visionary: no man is thought worthy of a voice in politics unless he ignores or does not know nine-tenths of the most important relevant facts."

~ Lord Bertrand Russel

Interdisciplinary knowledge and research are important because:

1. Creativity often requires interdisciplinary knowledge.
2. Immigrants often make important contributions to their new field.
3. Disciplinarians often commit errors which can be best detected by people familiar with two or more disciplines.
4. Some worthwhile topics of research fall in the interstices among the traditional disciplines.
5. Many intellectual, social, and practical problems require interdisciplinary approaches.
6. Interdisciplinary knowledge and research serve to remind us of the unity-of-knowledge ideal.
7. Interdisciplinary knowledge and research serve to remind us of the unity-of-knowledge ideal.
7. Interdisciplinary knowledge and research serve to remind us of the unity-of-knowledge ideal.
8. More so than narrow disciplinarians, interdisciplinarians often treat themselves to the intellectual equivalent of traveling in new lands.
9. Interdisciplinarians may help breach communication gaps in the modern academy, thereby helping to mobilize its enormous intellectual resources in the cause of greater social rationality and justice.
10. By bridging fragmented disciplines, interdisciplinarians might play a role in the defense of academic freedom. and cognitive liberty.

The frequently-encountered wholesale dismissal of either interdisciplinary knowledge or research reflects a profound misunderstanding of their vital contributions to scholarship, society, and individuals. This article presents the only self-contained, comprehensive defense of interdisciplinary knowledge and research, arguing that they are important because: 1. Creativity often requires interdisciplinary knowledge. 2. Immigrants often make important contributions to their new field. 3. Disciplinarians often commit errors which can be best detected by people familiar with two or more disciplines. 4. Some worthwhile topics of research fall in the interstices among the traditional disciplines. 5. Many intellectual, social, and practical problems require interdisciplinary approaches. 6. Interdisciplinary knowledge and research serve to remind us of the unity-of-knowledge ideal. 7. Interdisciplinary knowledge and research serve to remind us of the unity-of-knowledge ideal. 7. Interdisciplinary knowledge and research serve to remind us of the unity-of-knowledge ideal. 8. More so than narrow disciplinarians, interdisciplinarians often treat themselves to the intellectual equivalent of traveling in new lands. 9. Interdisciplinarians may help breach communication gaps in the modern academy, thereby helping to mobilize its enormous intellectual resources in the cause of greater social rationality and justice. 10. By bridging fragmented disciplines, interdisciplinarians might play a role in the defense of academic freedom. The case against interdisciplinary knowledge and research is made up of many intrinsic drawbacks and practical barriers. Taken together, these rewards, drawbacks, and barriers suggest a mild shift in the contemporary world of learning towards interdisciplinary knowledge and research.
